

Toddler Pull-On Pants: Basic Pattern Block

Read this before you cut. The pattern pieces in this file are a computer-drafted basic block, built from standard/generic toddler body measurement conventions and a simplified flat-drafting method for elastic-waist pull-on pants. They have not been physically sewn or fit-tested on a child. Standard drafting practice for any new block is the same rule this brand applies to every fitted garment: make a muslin (a test version in cheap fabric) before cutting your good fabric, check the fit on the actual child, and adjust the rise, inseam, or hip width as needed.

Construction: one symmetric pattern piece, cut on the fold at the outer leg line, cut twice (mirrored) per pair of pants. The two pieces are sewn together at the center front curve, the center back curve, and the inseam. There is no outer side seam in this block.

Why this isn't a print-at-home cut file: these pieces run 23 to 31 inches tall depending on size, too long for a single letter page even tiled. Each page that follows shows the piece shape at a reduced scale with a ruler reference, plus the exact measurements needed to draft the piece at full size on pattern paper or freezer paper using a ruler and a flexible curve.

How to draft from the measurements: Draw a vertical fold line equal to the total length. Mark the waist line at the top, square across at the piece width. Measure down the hip depth from the waist along the inner edge, then curve outward to the crotch extension point at the rise line, then curve back in to meet the inseam width. Draw a straight (or very slightly tapered) line from there to the ankle point, then square across to the fold at the bottom. Add seam allowance outside every line except the fold.

Size 2T — Pattern Piece Diagram (scaled)

Cut on fold at outer leg (left edge below). Cut 2 mirrored pieces per pair.

Measurement	Value
Hip (body measurement)	21.0"
Rise (crotch depth)	8.5"
Inseam length	12.5"
Ankle opening	7.5"
Piece width at hip (fold to inner edge)	5.75"
Hip depth before crotch curve begins	3.83"
Crotch extension (outward bulge)	2.3"
Inner edge width where curve rejoins leg	2.62"
Ankle half-width (fold to inner edge)	2.12"
Total piece length, waist to ankle	23.25"
Seam allowance (add outside all cut lines except fold)	0.5"

Untested block. Muslin fit-check required before cutting final fabric.

scale reference: 5 inches

Size 3T — Pattern Piece Diagram (scaled)

Cut on fold at outer leg (left edge below). Cut 2 mirrored pieces per pair.

Measurement	Value
Hip (body measurement)	22.0"
Rise (crotch depth)	9.0"
Inseam length	14.5"
Ankle opening	7.75"
Piece width at hip (fold to inner edge)	6.0"
Hip depth before crotch curve begins	4.05"
Crotch extension (outward bulge)	2.4"
Inner edge width where curve rejoins leg	2.69"
Ankle half-width (fold to inner edge)	2.19"
Total piece length, waist to ankle	25.75"
Seam allowance (add outside all cut lines except fold)	0.5"

Untested block. Muslin fit-check required before cutting final fabric.

scale reference: 5 inches

Size 4T — Pattern Piece Diagram (scaled)

Cut on fold at outer leg (left edge below). Cut 2 mirrored pieces per pair.

Measurement	Value
Hip (body measurement)	23.0"
Rise (crotch depth)	9.5"
Inseam length	16.5"
Ankle opening	8.0"
Piece width at hip (fold to inner edge)	6.25"
Hip depth before crotch curve begins	4.28"
Crotch extension (outward bulge)	2.5"
Inner edge width where curve rejoins leg	2.75"
Ankle half-width (fold to inner edge)	2.25"
Total piece length, waist to ankle	28.25"
Seam allowance (add outside all cut lines except fold)	0.5"

Untested block. Muslin fit-check required before cutting final fabric.

scale reference: 5 inches

Size 5T — Pattern Piece Diagram (scaled)

Cut on fold at outer leg (left edge below). Cut 2 mirrored pieces per pair.

Measurement	Value
Hip (body measurement)	24.0"
Rise (crotch depth)	10.0"
Inseam length	18.5"
Ankle opening	8.25"
Piece width at hip (fold to inner edge)	6.5"
Hip depth before crotch curve begins	4.5"
Crotch extension (outward bulge)	2.6"
Inner edge width where curve rejoins leg	2.81"
Ankle half-width (fold to inner edge)	2.31"
Total piece length, waist to ankle	30.75"
Seam allowance (add outside all cut lines except fold)	0.5"

Untested block. Muslin fit-check required before cutting final fabric.
